

ORANGEMEN GATHER HERE TO CELEBRATE

**Grand Lodge Officers and Members of three
Principal Districts Make City a Blaze
of Color.**

"To the glorious, pious and immortal memory of great and good King William, who saved us from slavery, knavery, brass money and wooden shoes, has the loyal Orange custom been dedicated. It celebrates the crossing of the Boyne by William of Orange in 1690 and also the battle of Aughrim, that took place 216 years ago to-day. There is a general impression that the battle of the Boyne is the cause of the festivities, but it is not. This battle occurred on July 1st, 1690, and Orangemen who want to celebrate it must infuse extra patriotism into Dominion Day."

The Orange order took its rise from the many conflicts in Ireland between the Protestant and Roman Catholic bodies during and after the war of the succession. Many sanguinary conflicts took place, and finally, on September 2nd, 1701, the first Orange lodge was founded in the village of Loughgall, County Armagh. The order spread with great rapidity, and by November, 1788, had reached the dignity of a grand lodge for Ireland. In 1805, it attended to England, and a Grand Lodge for the United Kingdom was established in Manchester. This seat of this body was transferred to London in 1821, where it has since remained.

In 1827 a member of the royal family, the Duke of Cumberland, was elected grand master for England the next year being raised to the position of imperial grand master. As the outcome of an alleged Orange conspiracy to alter the succession to the crown in favor of this duke, a prolonged parliamentary inquiry was held in 1835, but the blame was not fixed, and the investigation was productive of very small results.

The principal object of the Loyal Orange lodges, as subordinate bodies are called, is the preservation of Protestant succession to the throne and maintenance of that branch of religious belief. As is always the case in bodies of a sectarian character a certain number of fanatics have from time to time become members and brought discredit on a large body of law-abiding, conscientious men. Overt acts on the part of these irresponsible sectaries have, in the minds of many, created a prejudice against the order in general. The presence in this city, however, of a large proportion of the membership, including men occupying prominent official and business positions, should do much to remove this misapprehension and place the Orange order in its true light. Though many may disagree with the opinions indicated, the members have always been ready to battle for civil and religious liberty and defend the integrity of the Empire.

A striking instance of this, now almost forgotten, occurred in Victoria during the time of the Fenian raids in 1870. Lieutenant-Governor Musgrave decided it would be necessary to take steps for protection and called Arthur Hill McBride, father of the present premier and now a resident of New Westminster, into consultation on the subject. That gentleman's advice was explicit but good. He suggested the Orangemen of the city should be drilled and placed in a position to defend the colony if necessity arose. In his position of head of the local police, Mr. McBride was able to carry out the programme without publicity. There were a large number of rifles stored in the local jail. The members of the Orange order were secretly gathered together, instructed in the manipulation of firearms and their names and addresses placed on what might be termed a regimental patrol. Regular patrols and a system of espionage established, and everything made ready for the expected trouble. Fortunately, no necessity for action arose, but the incident goes to show that the Orange order would have been found in the forefront should actual hostilities have followed the scare.

Men, women and children are included in the order's membership. The Loyal Orange lodge is composed of males over 18, the Loyal True Blues, of wives and sisters of members, being over the same age; while the rising generation is taken care of by boys' lodges, known by the name of Loyal Orange Young Britons.

Cascada has always been, since the introduction of Orangism, a strong-hold of the order, and it has, to a certain extent permeated the United States. Tenets have been altered to suit local exigencies, but the maintenance of Protestantism has always remained the principal object of the association. In British America there are, to-day, somewhere over 1,500 lodges with a membership of nearly 200,000, and, particularly in Ontario, it exercises a powerful political influence.

British Columbia has been for many years the scene of great Orange activity. In the seventies New Westminster lodge No. 1150 was instituted with the late William Johnson as worshipful master, followed some years afterwards by the formation of Victoria lodge No. 1426. Both of these are in existence to-day, and well up in the list of membership. Vancouver No. 1560 is, however, the banner lodge, with about 300 members. The province is divided into six districts, besides which there are 19 iso-

lates lodges in the interior. There are 61 lodges of the different branches in the province, with a total membership of about 7,200, made up of 52 L. O. L. with 4030 members; 6 Loyal True Blues with 200 members; and 3 Loyal Orange Young Britons with 150.

The returns from the fete were very substantial.

St. Barnabas' Fete.

On the grounds at the residence of Mrs. Dahlby, North Chatham street, yesterday afternoon a well attended garden fete was held under the auspices of St. Barnabas' church. On opening at 3 o'clock, the rector of the church, Rev. E. G. Miller, delivered a short address. Booths were arranged for the sale of candy, bowers, ice cream and fruits, and were placed under the charge of the Ladies' Aid, St. Barnabas' Guild, and the Willing Helpers' Society. Lunch was provided at one of the booths.

Mrs. Foot, and her pupils supplied music during the afternoon. In the evening the orchestra of Jesse Longfield took their place. Rev. Mr. Miller also provided during the evening a fireworks display.

A GOOD AVERAGE RUN IS PREDICTED

BY THOSE ENGAGED IN SALMON INDUSTRY

Outlook Reported Roseate by Trap Owners Recent High Tides Damage the Nets.

The emblem flower of the order is the lily bulbiferum, a lily, the orange color of which is used in the regalia of both officers and members of subordinate or primary lodges. This flower does not grow in British Columbia, but is found in Ireland and Ontario, where it blooms freely about this time of the year.

Considerable public interest is felt in the different colors displayed in the regalia worn by members of the Orange order. Shortly the distinctive colors may thus be described. Members of primary lodge wear an orange-colored sash; officers of the same an orange-colored collar. Four other degrees are conferred by subordinate bodies—the blue, purple, arch and scarlet. After a member has passed the first he is entitled to wear an orange sash with blue or purple stripes. Upon attaining the scarlet degree he becomes what is termed a Scarlet Knight, and wears a sash of the color mentioned. There is also a further degree, not actually a branch of Orangism, but rather an attachment thereto, known as the Black Preceptory. The members of this branch wear a black sash with scarlet facings. The ends are being decorated with a red Geneva cross.

The regalia of officers is a collar similar to that worn by many other orders.

As mentioned previously the officers of subordinate lodges wear orange velvet collars. Those of district lodges wear dark blue collars of the same material, and county lodges those of purple. Grand lodge officers wear scarlet collars with heavy gold decorations. Upon them also appear the emblem of the order—the red thistle and shamrock—entwined with the adage—*Canada—of the maple leaf*.

Though green is usually taken as the color of Ireland, such is not correct. The proper color is dark blue, as evidenced by the ribbon of the order of St. Patrick and the Irish portion of the design of the Union Jack. This being the case, the regalia of the female Orange lodges, the Loyal True Blues and the Loyal Young Britons, consists of a blue sash or collar with orange silk trimmings.

Victoria is the honor this year of entertaining the grand lodge officers and members of subordinate lodges in the Victoria, Vancouver and Nanaimo districts. New Westminster, Fraser River and Rosedale would have been represented, but found it impossible to secure transportation. But Orangemen all over British Columbia will celebrate in other places, no less than three gatherings taking place besides the principal one in this city. The three districts, last mentioned, are meeting at Abbotsford, under the auspices of L. O. L. No. 1575. Fernie and Cranbrook are celebrating in the latter place as guests of L. O. L. No. 1571. The other isolated districts are gathering at Salmon Arm, where extensive preparations have been made for entertainment by L. O. L. No. 1642.

(Continued on page 8.)

YESTERDAY'S PARTIES.

Successful Garden Fete Given on Lawns at Mrs. Rattenbury's and Mrs. Dalby's.

The garden party given on the grounds of Mrs. F. M. Rattenbury at Oak Bay yesterday afternoon was a well attended and a very enjoyable afternoon and evening was spent. The fete was given for the purpose of rendering financial aid to the widow and family of the late James Redford, of Alberni, who was accidentally killed in a boat accident in the harbor, which was very deserving. The funds will be divided between the two.

Booths were provided on the grounds and a good business was done at these. A candy stall was in charge of Mrs. Joule and Miss Joule and Mrs. Jack Gray. A corner grocer was situated up and placed to advantage. Their goods and articles of home manufacture were placed on sale here. The ice cream department also did a flourishing business.

Amusements of various kinds were afforded, among them being an archery

contest under the charge of Miss Hall and Miss White.

Songs were also given by Miss E. Sohl, Miss Buckman, the Capital Minstrels, Mr. Shaw, Bert Aaronson and Harry Aaronson, and instrumental selections were given by Miss Thain and Messrs. Jamieson, Homan and Locke.

The returns from the fete were very substantial.

DREYFUS HAS BEEN VINDICATED

THE SUPREME COURT ANNULS CONDEMNATION

The Captain, After Long Fight, Is Entitled to Restoration to Rank in Army.

(Associated Press)

Paris, July 12.—The Supreme court to-day announced its decision annulling the condemnation of Dreyfus without a retrial.

The effect of the decision is a complete vindication of Dreyfus, entitling him to restoration to his rank in the army as though he had never been accused.

Captain Alfred Dreyfus, of the artillery, member of a wealthy Hebrew family of Alsace, where he was born in 1854, was on October 19th, 1894, arrested on the charge of communicating French military secrets to a foreign power. Two months later he was tried by court-martial and found guilty, and on January 5th he was publicly degraded and deported to Devil's Island near Cayenne, French Guiana, there apparently to spend the remainder of his days. The friends and relatives of Dreyfus, notably his wife, always believed in his innocence and devoted all their energies to the work of proving that he had been unjustly condemned.

Col. Picquart, when he became chief of the intelligence department of the French army in 1886, examined the documents in the proceedings against Dreyfus, and formed the opinion that the evidence pointed to Major Count Etchehazan as being the guilty man. He thereupon determined to see that justice was done to Dreyfus.

Soon afterwards Col. Picquart was superseded as chief of the intelligence department by Col. Henry, and then began a fight to preserve the honor of the French army. Dreyfus on November 15th, 1897, charged Estheray with writing the incriminating documents, but the latter was acquitted by a court-martial.

When M. Caugnac became head of the French war office he read in the

chamber of deputies rival documents which he said proved the guilt of Dreyfus. Col. Picquart afterwards charged that these documents were forgeries for which he was arrested and degraded.

The friends of Dreyfus were tireless in pushing his case, and therewith determined to see that justice was done to Dreyfus.

By this time the whole of France was arrayed for or against Dreyfus, and the utmost excitement prevailed in military, political and social circles.

In June 1899 a fresh court-martial of Dreyfus was ordered, and the prisoner was brought back from Devil's Island to be retried. In the meantime the press throughout the world had been filled with stories of the barbarities to which Dreyfus had been subjected during his confinement on Devil's Island, which aroused further feeling in his favor.

The second court-martial of Dreyfus, which opened at Rennes, France, August 7th, 1899, resulted in his again being convicted, and he was sentenced to 10 years' imprisonment in a fortress.

Later he obtained a full pardon from President Loubet and was set free.

The friends of the unfortunate captain were not contented. They obtained fresh evidence in his behalf, and finally got the case before the Supreme Court. Maitre Monord, counsel for Dreyfus, argued against a further trial saying that the witnesses were dead or had disappeared. Dreyfus, he added, did not ask for damages. He desired only the vindication of his honor and the restoration of his name to the list of officers of the French army. The official prosecutor concluded his argument by asking that the verdict of the Rennes court-martial be quashed without a retrial.

The judgment of the Supreme court to-day was a complete vindication for Dreyfus.

The average catches of sockeye on the Fraser river have been better recently than before, and the take at the Sound traps has also improved. On the main river last night the average catch to the boat was twenty-five fish, on the upper from twenty-five to sixty, according to the cannery served, at Canoe Pass fifty-five, and on the north arm of the river, twenty-seven fish.

The Pacific American Fisheries Company of Bellingham secured fourteen thousand fish on Monday three thousand of them being from Lummi Island, and three thousand from the salmon banks, and eight thousand from various points on the Gulf. The Sound seiners were doing very little on the same day, as few fish were jumping.

Sockeyes are now running at Rivers Inlet, and on Saturday last the average was between forty and fifty fish to the boat. Some boats secured as many as one hundred and twenty-five fish, while a weight has been fair, and everything points to a successful season.

The cannery on the river had about twelve thousand cases up to last Saturday night.

On the whole local cannery believe that the indications could not be more favorable. They do not expect a heavy fall, but look forward to a very large one. Their opinions all appear to coincide in this, so that the prediction may be given as much credit as it is safe at any time to place upon prophecy.

FELLOWSHIP UNDER CARS.

Syracuse, N. Y., July 12.—James McDonald, of Cornwall, Ont., while attempting to board a moving train on the New York and Ottawa road at Santa Clara N. Y. yesterday fell under the cars and was cut in two instantly.

A Dubois, Pa., dispatch says: The long coal strike in this region was settled here Wednesday in a conference between representatives of the coal companies and miners' officials, and employees will return to work next Monday.

GOLD ROBBERY.

Steamer Ida May in the North.

(Associated Press)

Seattle, Wash., July 12.—More than \$100,000, consigned to the Alaska Pacific Express Company here, has been stolen from aboard the steamer Ida May, and no clue has been obtained as to who the robbers are.

The shipment was sent from Fairbanks, and was transferred at Tanana. The Ida May was to transfer it to the Sarah at Fort Gibbon, and it was there that the loss was discovered.

a result, the police allege, of being kicked in the head by Alex McDonald. Both men worked at the Norton Company's works. A warrant was issued for McDonald's arrest.

Decides to Remain.

Toronto, July 11.—Dr. Goldwin Smith, whose resignation from the directorate of Toronto University was announced yesterday, has decided to remain on the board for some time.

Candidate Selected.

Pembroke, July 11.—North Renfrew Conservatives yesterday nominated Gerald White, son of the late Hon. Peter White, to contest the riding for the House of Commons.

RAILWAY WRECKS.

Three Italians Killed and Several Frightfully Injured.

Galt, Ont., July 10.—The C. P. R. at the point where the line crosses the Blant road, was the scene of a railway collision at noon to-day. A freight from the East making its way, it is said, contrary to orders, ran into a construction train carrying half-a-hundred Italian navvies. The result was a day's work and the loss of at least three lives, with a dozen men frightfully injured.

Cars Left Track.

Winnipeg, July 10.—A very exhaustive investigation conducted at a score of points representative of the entire country quite dispels the market rumor sent out from here to-day to the effect that the wheat crop was badly rusted. This absurd rumor is evidently got up solely for the purpose of manipulating the market by interested parties, whereas as a matter of fact wheat never was in better condition nor promised such a bountiful yield.

Indian Census.

Winnipeg, July 11.—The Indian population of the West will be counted during the present census-taking and most reliable statistics concerning the aboriginal population will be tabulated.

Proposed Amalgamation.

Edmonton, July 11.—The regular quarterly meeting of the delegates representing all the local unions in northern Alberta of the Canadian Society of Equity met yesterday afternoon in the city hall and held an interesting session, dispatching much important business. The main object of the convention was to consider the advisability of amalgamation with the Alberta Farmers' Association. The decision of the convention was the appointment of a committee of three to confer with a similar committee from the Alberta Farmers' Association, appointed at Calgary last May.

Edmonton Improvements.

Edmonton, July 11.—The city council last night awarded contracts aggregating over \$250,000 for sewer and water extensions to Taylor, Boucher & Peters, a local firm. Tenders also were received from the Builders' Supply & Construction Company and the Canadian White Company trunk sewer along Rat Creek and adjacent streets to drain the northwest corner of the city.

Accidentally Shot.

Kingston, July 11.—Harold Sisley, aged 3, living near Arden, pulled a rifle out from under a bed while his parents were absent, and in the act the weapon was discharged, killing a 16-year-old sister.

Band Dismissed.

London, July 11.—An order issued by Col. J. W. Little dismisses members of the band of the Seventh Regiment, and the officers are now advertising for musicians for a new band. The Seventh band was organized in 1854. It played the regiment away to the Fenian raid and in 1855 led the soldiers as they marched for the Northwest to put down the Riel rebellion. The cause of the dismissal is due to a refusal by the band to go to Ottawa for a banding Day unless the members were paid \$5 each for their services.

Died From Injuries.

Hamilton, July 11.—Andrew McGarvie died at the hospital yesterday as the result of injuries received in a fall from a horse.

Accidently Shot.

**MR. CHAMBERLAIN IS
CONFIDENT OF SUCCESS**

Speech at Special Meeting of Tariff Commission—Cause is Gaining Ground.

London, July 11.—At a special meeting of the tariff commission to-day, a presentation was made to Mr. Chamberlain, commemorating the anniversary of his seventieth birthday. In making the presentation, Mr. Hicks, chairman, expressed the gratification of the commission that Mr. Chamberlain had lived, not merely to celebrate his seventieth birthday, but to celebrate it in the prime of his vigor and at a time when the great cause with which he associated himself, was speedily gaining ground.

In the course of a cordial reply, Mr. Chamberlain said:

"Nothing that has happened has shaken in the slightest degree my own conviction of the necessity for the work we have undertaken and of its certain ultimate success. Sometimes I see it stated that we have been premature in this matter. It might, with greater justice, be said that we have delayed a little too long, but I imagine there are very few of us who were not brought up in doctrines different from those which we have been forced by circumstances to accept, and although I am not in the slightest degree ashamed of any change in my opinions, I do think, in order to justify such change it was necessary we should convince ourselves of its absolute necessity. What has happened here is only what has happened not so many years ago in the case of Canada, in the case also of most of those countries which are protected."

"Countries like Germany and Canada, at one time free trade countries, and other countries as well, discovered that in pursuance of the policy of free trade, they could not promote satisfactorily the full prosperity of their respective countries. Nothing was more interesting than to read the other day, speeches made before the British Empire League by Colonel Denison and Mr. Drummond. They gave the history of the movement in Canada, showed how the infant industries of Canada would certainly have been stifled, destroyed, if they continued under a free trade policy. To this time there are still persons in Canada who call themselves free traders and who know or think we know that there is not one of them who would freely put into logical application the old doctrines of free trade. In Canada they felt it necessary to establish these infant industries and could only do so by giving them some kind of defence against what was otherwise the overwhelming competition of their great neighbor. See in their case how all predictions of evil have been falsified, how great is the prosperity which followed the adoption of their policy. (Applause.)

"Let me remember that at the commencement Canada and America were justified by one of our greatest economists, John Stuart Mills, who admitted, greatly, to the discomfort of some of our more rigid free traders, that protection against such competitors as they had to fear was justifiable in case of industries, which although old industries, are now being subjected to new conditions which are unfair, which under ordinary circumstances it would be impossible to meet. We are as much justified in maintaining our trade by the proposals we are making as Americans and Canadians were in starting trade which has now reached such gigantic proportions."

Mr. Chamberlain added that they had confident expectation of an early consummation of the endeavor to maintain the prosperity of the country and unite more strongly the different parts of the Empire.

The tariff commission has during two years published nine volumes of its report, including an exhaustive report on agriculture now under consideration, and which will be published shortly. This will be followed by a special report on preference which will be circulated throughout the Empire. The commission expects to complete its survey of British trade conditions in the early autumn.

AN ADJOURNMENT.

Cleveland, July 11.—After examining four witnesses today, the federal grand jury which has been investigating charges of discrimination against various railroads and the Standard Oil Company adjourned at noon to-day until Monday. District Attorney Sullivan refused to give the real cause of the adjournment, but it was learned on good authority that it was taken to enable him to go to Washington to consult with Attorney-General Moody relative to the present status of the case.

LABORER'S SUICIDE.

Placed Stick of Dynamite Under His Head and Lit Fuse.

Winnipeg, July 10.—Brooding over wages spent in a protracted drunken spree, a Swedish laborer on the G. T. P. construction camp at Shetla, named Alfred Nelson, committed suicide on Sunday afternoon in a horrible manner. He placed a stick of dynamite under his head and lit the fuse. The explosion killed him instantly and mangled his body horribly. His head was blown off, and the fragments being found 50 feet away. Dr. Birdsall held an inquest and a verdict of suicide was returned.

Died From Injuries.

Hamilton, July 11.—Andrew McGarvie died at the hospital yesterday as the result of injuries received in a fall from a horse.

SHOT BY SAILOR.

Vice-Admiral Chouklin is in Serious Condition.

Sebastopol, July 11.—Vice-Admiral Chouklin, who was shot here this afternoon is in an extremely serious condition. The bullet lodged in his lung, making breathing difficult. The doctors hold out no hope for his recovery.

The admiral's assailant is thought to be one of the sailors of the battleship Ochakov and the deed is supposed to be in revenge for the execution of Lieut. Schmidt, the rebel leader. At the time of the execution of Schmidt the revolutionists condemned the admiral to death, 100 of their number pledging themselves to carry out the sentence.

This is the second attempt since Schmidt's execution, March 19th, of this year. The first attempt was made by a woman and after her effort had failed, Admiral Chouklin ordered her killed on the spot, and his order was brutally carried out in the courtyard. For this the admiral was again condemned to death by the revolutionists. His name was never mentioned among his sailors unless it was accompanied by curses on account of his overbearing manner.

The would-be assassin is a sailor who hid in the bushes and shot at the admiral as he was walking in the garden of his villa. The culprit has not been apprehended.

CABINET CRISIS.

Trouble Over Proposal to Reduce the Shipbuilding Programme.

London, July 12.—The Express this morning says the cabinet is in the throes of serious crisis. "Split in twain on the vital question whether the navy shall be maintained in a condition of efficiency or shall be weakened considerably by rival nations being permitted to outdistance us in the race for naval equipment."

The paper points out that some days ago the cabinet decided to reduce the year's shipbuilding programme, abandoning the two battleships of the Dreadnaught class, which originally it was intended to lay down the coming autumn.

Three or four members of the cabinet, it is asserted, expressed themselves as opposed to "this most dangerous economy."

Then came protests from the board of admiralty experts, including Sir John Fisher, admiral of the fleet, all of whom threatened to resign if the cabinet persisted.

At the cabinet meeting on Tuesday there was a prolonged discussion, but the majority stood steadfast for the resolution. The protest, however, had the effect of postponing consideration of the naval estimates to July 27th.

THE GIRL THAT'S NEVER STRONG.

You meet her everywhere, behind the counter, in the office, how hard her lot, weak, unstrung, easily tired, it's the will not the strength keeps her in the race. She wants to be strong, but doesn't know how.

Let her try Ferrozone. It ironizes the blood, fills it with nourishment and force that imparts vitality to every part of the body. No tonic so strengthening and appetizing, no results surer than that the steady rebuilding Ferrozone produces.

It was all run down and an apt subject for Pneumonia," writes Mrs. A. B. Charlton, of Burlington. "I tried Ferrozone, but didn't believe it could build me up so quickly. In a few days my appetite improved, color came into my cheeks and I felt stronger. I gained eight pounds and regained my old-time vigor.

Ferrozone will do as much for you as for all drugists or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., \$6 per box.

FRENCH INSURANCE LAW.

Paris, July 11.—Paul Morton, president of the Equitable Life Assurance Society, is here going over the French insurance situation. He had a long conference with United States Ambassador McCormick. Forty-five days remain before the new insurance law goes into operation, when the companies must accept the decision that the French premiums must be increased in approved French securities or withdrawn. Mr. Morton has not yet reached a decision, but indications point to the withdrawal of the Equitable from the field and to similar action on the part of other American companies.

LOST IN SPECULATION.

London, July 11.—Official and other inquiries are on foot regarding the affairs of Charles Chester, a solicitor who died in May last after having lost, it is alleged, between \$1,500,000 and \$2,000,000 of his clients' money.

The main losses affect five or six including Lord Amherst, of Hackney. The latter had sold Didlington Hall, Broadland, Norfolk, for a large sum of money, a considerable portion of which was held in the form of trust funds by Chester.

It was at first thought Lord Amherst was practically ruined. He, however, is not the hardest hit. The heaviest loser is said to be a woman, whose name is unknown, who is losing by \$500,000.

It is alleged that Chester's defalcations extended over several years, and were largely the outcome of speculation in the stock exchange, principally in mining shares.

It is thought the inquiry will result in the prosecution of several persons who were privy to Chester's alleged frauds.

DRUGS REPORTED.

London, July 11.—A dispatch to a news agency from St. Petersburg says that three young men in students' uniform shot and wounded a paymaster and two watchmen in the office of the paymaster of the admiralty and decamped with a team with \$12,000.

THE PUBLIC IS OFTEN FADED.

Unscrupulous dealers actuated by large profits often recommend cures "as good as Putnam's." There is only one genuine Corn Extractor, and that is Putnam's Painless, which is a miracle of efficiency and promptness. Use no other.

WEATHER BULLETIN.

Daily Report Issued by the Victoria Meteorological Department.

Victoria, July 12, 5 a.m.—The pressure is high on the Pacific slope and low in Arizona; fair weather prevails in all districts. In the Northwest the low area remains nearly stationary. In Manitoba and a high area extends from the lakes to the provinces of Ontario. Rainfall has been pretty general from Calgary to Winnipeg, and present conditions are unsettled and showery.

Forecasts.

For 8 hours ending 5 p.m., Friday, Victoria and vicinity—Light or moderate winds, continued fair and warm to-day and Friday.

Lower Mainland—Light winds, continued fair and warm to-day and Friday.

Reports.

Victoria—Barometer, 30.10; temperature, 56; minimum, 56; wind, calm; weather, clear.

New Westminster—Barometer, 30.10; temperature, 56; minimum, 56; wind, calm; weather, clear.

Kamloops—Barometer, 30.00; temperature, 56; minimum, 56; wind, calm; weather, clear.

Barkerville—Barometer, 30.34; temperature, 48; minimum, 46; wind, calm; weather, clear.

San Francisco—Barometer, 29.92; temperature, 57; minimum, 56; wind, 6 miles W.; weather, cloudy.

Edmonton—Barometer, 30.14; temperature, 52; minimum, 50; wind, 8 miles N.; weather, fair.

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office.
July 4th to 10th, 1906.

This summer weather has for the most part prevailed over this western part of the continent during the past week. The first three days were characterized by a continuance of the hot weather which was noted at the close of the previous week, and although in this district it was somewhat cooler, yet in Kamloops division the heat was excessive. Kamloops recording 90 degrees on 4 days. Further south in the Pacific states 100 was reported in California, and between the ranges also the temperature has been abnormally high. The rainfall has been very light in the province, and the showers of the 9th and 10th, though very local, were most welcome.

The barometric pressure has been chiefly high on the Coast, and a low area has covered the region of the Rocky Mountains; during the first half of the week a vast area of high pressure extending from the foothills to the Great Lakes was the controlling factor in our weather, but on the 8th this "high" began to move eastward in advance of an ocean low area which crossed the province, causing in its passage cloudy and cooler weather with showers in the Straits and Sound. Two thunderstorms occurred in this province, two more in the Pacific states; in the Canadian Northwest there were nine, and the rainfall has at times been heavy. Edmonton on the 10th reporting a fall of 108 inches in the 24 hours.

No bush fires have been reported, and the weather on the whole has been everything that could be desired for both crops and fruit.

At Victoria there were registered 5 hours of bright sunshine; the highest temperature was 81.0 on the 8th, rain, 0.16 inch.

At Vancouver Highest temperature, 80 on 8th; lowest, 50 on 8th.

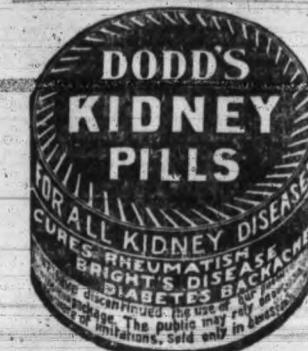

At New Westminster—Highest, 80 on 6th and 7th; lowest, 52 on 5th, 7th and 8th; rain, 0.38 inch.

At Kamloops Highest, 100 on 6th, 5th, 6th and 8th; lowest, 82 on 4th; rain, 0.18 inch.

At Barkerville Highest, 88 on 6th; lowest, 50 on 6th; rain, 0.08 inch.

Owing to wire trouble, the returns are incomplete from Dawson, Atlin and Port Simpson.

the Hillside or Rock Bay schools until the next meeting so that further information could be gathered.

H. B. Mackenzie, local manager of the Bank of B. N. A. wrote as follows:

Victoria, July 10th, 1906.

Alfred Huggett, Esq., Chairman Board of School Trustees, Victoria, B. C.:

Dear Sir:—Referring to the conversations which I have had with you on the subject of a school savings bank, I now enclose various specimens forms with directions showing how this business is conducted, and from which you will see that the routine is of a simple character. Briefly, it amounts to this: Deposits in sums of any size are accepted once a week from the scholars, and a record of the amount deposited by each scholar is kept by the teacher. The total amount is then placed in the bank in the name of the principal as trustee. When scholars have more than \$1.00 at their credit the bank will issue a separate book, and such scholars then become direct customers of the bank. Further deposits in such books of \$1.00 or upwards can be added from time to time as the scholar accumulates the necessary amount in the trust account. Interest at 3 per cent. per annum will be added to both trust and separate accounts half yearly, in the same way as is done with the ordinary accounts in the savings department.

To withdraw money the bank will require the signature of one parent as well as the scholars; and withdrawal slips must be countersigned by the teacher. I enclose a table of statistics showing the deposits under this system made in 122 schools in Eastern Canada and the United States, from which you will see that the total amount on deposit by school children at January 1st, 1906, amounted to \$1,223,569.22. You will find on the back of this table of statistics an address given by Mr. J. H. Tiery, Long Island, city, which is helpful in giving an understanding of the subject.

I think I have told before you all that it is necessary to enable the project to be dealt with by the school board, if possible, for the sake of the scholars, as the school board will be the best guarantee for the success of the project.

The resignation of Miss Ruth Pope was received and accepted.

Miss Russell, principal of the Spring Ridge school, was granted three months' leave of absence on a request made by her.

In recognition of the services which Ian St. Clair had rendered in giving swimming instruction to the pupils of the schools, free of charge during the holidays a vote of \$25 was made to Mr. St. Clair with a request that the city council supplement this sum by a similar grant.

The secretary was instructed to write to the city council protesting against the action of the chief of police in releasing from custody two firemen who were serving sentences in the city lockup, and who were engaged upon securing their liberty to work on the Pacific coast steamship Spokane, and therefore were classed as strike breakers.

The secretary was instructed to write to the city council protesting against the action of the chief of police in releasing from custody two firemen who were serving sentences in the city lockup, and who were engaged upon securing their liberty to work on the Pacific coast steamship Spokane, and therefore were classed as strike breakers.

Miss Cann, on behalf of the Provincial Teachers' Association, thanked the board for the use of the High school for the Labor Day celebration and the Dominion Trades Congress, which will be held in Victoria in September next.

Building Inspector Northcott reported as follows.

Mesdames and Gentlemen:—Yours of June 26th last received requesting me to confer with Trustee Lewis in regard to the condition of the Hillside and Rock Bay school premises, and report thereon to the board as to the suitability of these premises for school purposes, and as to the propriety of considerable expenditures thereon.

I have conferred with Trustee Lewis and have examined the schools mentioned, and would respectfully report to you as follows:

1st. I do not consider the site of the Hillside school suitable in any way, as the grounds are too low and not large enough for a school of that size, and, besides, this property is too close to the North Ward school, and it should be more central, and, in my opinion, the time is not far distant when this school, and the Spring Ridge school, will be merged into one in a more central location.

As to the condition of this school, the fences and shed are in good condition. The railing, steps and roof need repairing. The sanitary arrangements should be attended to, if this school is to be kept in use.

2nd. Rock Bay school I consider is well situated on good high ground, and in a central location, being between the North Ward school and the proposed new Victoria West school. In my opinion, a school will always be required for small children in this locality.

Condition of this school:—The building requires painting outside; the sidewalks, steps and fencing require repairing, and proper sanitary arrangements provided, and to connect with the sewer.

W. M. W. NORTHCOTT,
Building Inspector.

Trustee Lewis, of the buildings and grounds committee, reported that repairs to the Hillside and Rock Bay schools would cost \$1,700. The alterations to the North Ward school would amount to \$3,000. It was questionable whether it would not be better to carry out the latter work.

The meeting then adjourned.

THE CITY MARKET

The city markets this week show little change in prices from those prevailing last week. In fruits, strawberries are still being received, and the quality in most cases is excellent, in some instances being quite up to the earlier part of the season.

Raspberries are coming in quite plentifully, and also the popular loganberry. The prices of all these berries are practically the same, the fruits retailing for the most part at from 12½ cents to 15 cents a basket.

Tomatoes, locally grown, continue to increase in number, and there is no danger of a scarcity this year. Local dealers are shipping tomatoes out of the city to meet the demands elsewhere.

The retail prices are as follows:

Vegetables
Cabbage, per lb. 1½
Potatoes (Island), 10 lbs. 1.00
Onions, per lb. 6
Turnips, per lb. 1½
Cucumbers, per dozen 25
Watercress, per lb. 25
Tomatoes, per lb. 12½

Meats
Hams (American), per lb. 25
Bacon (American), per lb. 25
Bacon (rolled), per lb. 20
Bacon (done, sliced), per lb. 15
Beef, per lb. 10
Pork, per lb. 11½
Mutton, per lb. 12½
Lamb, hindquarters, per lb. 1.50
Lamb, for quarter, per lb. 1.50
Veal, per lb. 12½

Fish
Salmon, per lb. 12½
Halibut (smoked) 10
Halibut (smoked) 10
Codfish, per lb. 12½
Herrings, per lb. 6
Kippers, per lb. 10
Rock Cod, per lb. 10
Dabs, per lb. 12½
Shrimps, per lb. 25
Blansters, per lb. 8
Haddies, per lb. 10

Fruit
Coconuts, each 10
Strawberries, per box 15
Raspberries, per lb. 12½
Cherries, per lb. 12½
Red Currants, per lb. 8
Apples, per box 25
Oranges (navel), per dozen 40
Lemons, per lb. 25
New Jordan Almonds (shelled), per lb. 90
Valencia Almonds (shelled), per lb. 60

"Bella Cubana," clear Havana Cigar.

The fine weather last evening had the natural result of drawing to the Gorge an immense crowd of pleasure seekers who thoroughly enjoyed the unique entertainment provided in the bioscope and orchestral concert. The orchestra, it may fairly be said, is one of the best ever engaged for the out-door detection of music lovers. Although small in size, its members are all thoroughly capable, and the programme selections are eminently popular. Dancing on the green is becoming quite popular pastime at the Gorge park, and undoubtedly the establishment of a good dancing platform by the leavenway management would go very far in the making of popularity for thisouting place. An evening cannot be more pleasantly spent than in seeing the bioscope, hearing the good music and breathing the pine fragrant breezes out at Victoria's Happy Land.

NEW STEAMER ON TRIAL RUN 10-DAY

THE PETREL READY FOR COMMISSION

UMATILLA, AMUR, TANGO AND STENTOR
Among Arrivals in Last Twenty-Four Hours.

VICTORIA WEATHER June, 1906

Wednesday, July 11. Deg.

Highest 77

Lowest 53

Mean 65

Sunshine, 12 hours-51 minutes.

This afternoon the new steamer

built at the yard of the Victoria Machinery Depot in the upper harbor will be given a trial trip. She is built entirely of steel and designed specially

for the purpose of towing the new

sloop boat recently constructed for service on the Fraser river. If the vessel proves satisfactory as a result of her run this afternoon she will be at once turned over to G. A. Keefer, Dominion government resident engineer. The name of the new craft is the Petrel.

The building of this vessel is but one of several important contracts which the Victoria Machinery Depot has had on hand. The new large building for

the Vancouver and Nanaimo ferries, serving in part in frames and with the

management of the yard anticipate, be ready for launching within three months. The barge is a very large one.

She will be larger than any other craft

of a like design in these waters. On

the deck there will be tracks sufficient

to accommodate about 30 cars.

Other work which the company have

on hand is the repair of the steamer Oscar, and the overhauling of the steamer Unicam. The latter lost her rudder down the Straits a short time ago. The rudder had to be renewed, and in addition some repairs had to be made. Both steamers were launched from the ways last night.

The machine shop of the yard have

been very busy of late. In addition to work of less importance, seven large boilers are being constructed, two of which are intended for the new

C. P. R. hotel.

In referring to the volume of business

executed in this yard, an injustice

was done the company in an article

appearing in the Times a week or so ago. It was there stated that 20 or 40 men found employment in the yard,

which is a mistake. In conversation with one of the managers of the yard

yesterday, the attention of a Times man was called to this error. There is never less than 130 men employed by the company, the newspaperman was informed, and at present the number

is 140.

Mr. W. F. Fox supported the groom.

After the service the relatives of the contracting parties drove to the residence of the bride's parents, Queen's Academy, where best wishes were expressed for the happiness of the young couple, after which the wedding breakfast was served. The reception rooms had been prettily decorated with smilax and white carnations, a large bell of white roses being suspended over the wedding cake.

The bride was the recipient of many handsome gifts, testifying to the high esteem in which she is held by all who know her.

Mr. and Mrs. Adams left on the morning train for a short honeymoon trip to Cowichan Lake.

THE HIGH SP. HOOT.

No Pupils Will Be Received at Christmas.

Pupils will not be received in the High school at Christmas. The provision of the sub-High school class renders this unnecessary. Pupils who have just passed the entrance examination and who wish to enter the High school must do so at the beginning of the term in August. Pupils who have failed at the entrance examination and those who hold a senior B certificate, may take regular High school work in the sub-High school class, beginning at the opening of the term. They will have no opportunity of entering the High school after Christmas. If they do not take advantage of the special class provided for them they will have to wait a year for the opportunity of taking up High school work.

LACROSSE.

GAME TO-NIGHT.

Commencing at 8:30 o'clock this evening, a lacrosse match will be played between the Victoria West and Nanaimo teams on the Oak Bay grounds. The game is expected to be interesting.

ATHLETICS.

ANNUAL SPORTS.

The annual athletic meet under the auspices of the Collegiate school is taking place this afternoon. It is being held at Oak Bay, and commenced at 2 o'clock. The programme comprises no less than twenty-four contests, and the students of their families have shown particularly keen interest in the running and jumping events. Some close finishes and good records are expected.

LACROSSE.

CONTEST POSTPONED.

The intermediate league match announced to be played between the Central and Victoria West teams, to-morrow night has been postponed indefinitely. It is believed that this is the result of the outcome of the protest made by Victoria West against the Centrals. A meeting of the latter club was called for last evening to consider the question. Owing to the poor attendance, however, it was found necessary to defer action in the matter.

YACHTING.

OCEAN RACE.

New York, July 18.—The steep yacht Mopsa, owned by F. C. and Walter Sullivan of the Harlem Yacht Club, to-night declared the winner of the 100-mile ocean race from New Rochelle around Montauk to Northeastern Badlightship, off Cape May, N. J., and return to New York for the challenge cup offered by the Brooklyn Yacht Club. The Mopsa crossed the finish line at 7:22:30 to-night, making her elapsed time 10 hours, 50 minutes and 40 seconds.

BASEBALL.

MATCH TO-DAY.

At Beacon Hill this afternoon the Hill-side and Nanaimo clubs are trying conclusions, the match being a feature of the Orange-men's celebration. F. Jewell is hitting as umpire.

CHASE EULOGIZED.

The appended paragraph from a prominent New York exchange shows in what esteem "Hal" Chase, formerly of Victoria, is held by Eastern fans: "If you want to make a real strong play say that Chase, of the New York Americans, is the greatest of all the great first basemen. In the field, at the bat, on the bases; in plain work or work with fancy edges, it's all the same. Prince Hal, that's all."

THE RIFLE.

BISLEY CONTESTS.

A dispatch from Bisley camp, dated Wednesday, says: "The wind was strong and shifty this morning which interfered with the scoring in the Alexander Martin match at 800 yards, seven shots. The best score was made by Co. Sergt.-Major Caven, of Victoria, who put on 32 out of a possible 35. Sergt.-Major Higgins, of Hamilton, and Piper Leask, of Toronto, came next with scores of 31 each. Cap. Forrest, of Vancouver, and Sergt. Mortimer, of Ottawa, each scored 29. The first prize in this match is a Martin match rifle with a full set of match sights in leather case, valued at £2. There are 31 other prizes. The competition closes Monday, July 16th.

The wind was tricky this afternoon, interfering again with the making of good scores. In Armorer's Company's match, distance 900 yards, seven shots each, the highest score made by Canadians was that of Co. Sergt.-Major Caven, who put on 32 out of a possible 35. Captain Forrest managed to score 26. There are 32 prizes, the first being £1.

In the Kynock unsquadron competition open to all comers, Sergt. Mortimer is maintaining his reputation, having scored 31 out of a possible 35 at 1,000 yards.

In the J. H. Steward challenge cup Lieut. A. H. Semple, of Truro, N. S., put up a good score of 34, one short of the possible.

The only two matches so far concluded at Bisley have been won by Sergeant Mortimer with the Ross rifle."

THE OAR.

CREWS SELECTED.

A largely-attended meeting of the J. B. A. boating committee was held last evening when the various four-oared crews for the annual club regatta, which will take place on the 21st inst., were chosen. Eight crews have been arranged for, and some exciting races are anticipated. In order that the crews may have the same advantages in training specified times have been set which they are particularly requested to adhere to; as interference with one another would undoubtedly hurt some crews' chances of gaining the prizes offered. The personnel of the four selected follows:

5:30 p.m.—Heldt, Cook, Donald, Morgan, Lucas, Mulcahy, stroke: Powell, Nicholson, Irving.

6:00 p.m.—Clarke, stroke: Nason, Thrall, Hiscock, King, stroke: McKittrick, Godfrey, Sparrow.

7:00 p.m.—Morgan, Townsend, Dempster, Jameson, Dresser, stroke: Hillyard, Sweeney, McArthur.

7:00 p.m.—Kennedy, stroke: Power, Sommers, Told.

7:30 p.m.—Finlayson, stroke: Laing, Heyland, W. Yencho.

A street has been wrecked by the collapse of a disused coal mine at Quarry Banks, Staffs.

MILLION DOLLAR FIRE.

Many Families Have Been Left Destitute in Newfoundland.

Halifax, July 11.—News has reached here of a destructive fire in Newfounland, the ancient colony. The fire was on the timber estates at Minnebrook, near Gambo. The company's big mill, offices, warehouses, barns, 10 dwellings and half a million feet of lumber were destroyed, causing a loss estimated at over \$1,600,000. Over 150 men are out of employment and many families are destitute.

NO MAN STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of Medicine, Dr. Hobart A. Hare, of the University of Pa.; Prof. Lawrence Johnson, M. D., Medical Dept., University of N. Y.; Prof. Edwin M. Hale, New York, and Prof. Newell Miller in the Hahnemann Medical College, Chicago, and many others, as remedies for indigestion and dyspepsia, torpid liver as well as for bronchial, throat and lung affections, as will be seen from reading a little booklet recently compiled by Dr. R. V. Pierce, of Buffalo, N. Y., who will send the same on request, by postal card or letter, to any address, free. This little booklet tells of what Dr. Pierce's celebrated medicines are made, and gives directions and doses of each and every ingredient entering into their composition. Write Doctor Pierce, as above and receive it by mail post.

Queen's root, or Stillingia, is an ingredient entering into the "Golden Medical Discovery" highly recommended by several of the above mentioned authorities for the cure of chronic or lingering bronchial, throat and lung affections, public speaker's sore throat attended with hoarseness, dry, rasping cough and kindred affections. Not only is Queen's root specific in its curative action in all these affections, but in "Golden Medical Discovery" it is greatly assisted by the combination with it of Golden Seal root, Stone root, Black Cherry bark and Bloodroot, with which it is blended in just the right proportion. Pure, triple refined glycerine also greatly enhances the effectiveness of all these agents in the cure of chronic and lingering coughs, being a valuable demulcent, also antiseptic, and a nutritive of great value, especially useful in all wasting diseases, as in incipient consumption and other scrofulous affections. "Golden Medical Discovery" is sovereign remedy in all catarrhal affections, whether affecting the nasal passages, the stomach, bowels or pelvic organs, and the reason why will be learned by reading the little booklet noted above. Send for it now.

When these two agents of nutrition and excretion are thus combined with equal assistance we are in health, but when this equilibrium does not exist there comes disorder and disease.

The common form of such derangement is indigestion or dyspepsia. The function of nutrition is interrupted and all the operations which depend upon it go wrong.

Under these conditions it has a way of appearing in other types of disorder. Many of these often mislead physicians. Other parts of the organism are likely to be involved, and we may find consumption, kidney complaint, hepatic (liver) disorders, hysteria and even mental alienation (derangement). He says it may be observed that deranged persons have a way gone expression, offensive breath, irregular action of the bowels, hallucinations and other like conditions of dyspepsia."

The foregoing is no doubt a rational view of the sad havoc worked in the human system by indigestion and dyspepsia, torpid liver and kindred derangements, which are generally associated with or followed by many other diseases of diverse appearance, but all depending upon a weak and deranged stomach.

Thus the stomach becomes the seat of many diseases and you cure all these diseases and derangements.

For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than Dr. Pierce's Golden Medical Discovery.

The Golden Seal root, Stone root, Mandrake root and Black Cherry bark are all recommended by such eminent authorities as Dr. Bartholomew of Jefferson Medical College; Prof. John King, author of the "AMERICAN DISPENSATORY"; Prof. John M. Neudorff, late of Cincinnati; Dr. William Paine, author of Paine's Epitomy of [R. V. Pierce, Buffalo, N. Y.]

district. Another Union Jack borne by a member in uniform, followed by a band playing, and flying brilliantly above the heads of the marchers was the banner of the oldest lodge represented, Victoria, No. 1426, instituted in 1874. This bears a splendid crest, the motto "Truth, Justice, and the Order's motto, "Our God, our Country and our Queen." The Nanaimo Silver Cornet band was next in line, with 18 pieces, closely followed by the representatives from Nanaimo district also bearing a splendid banner.

Nanaimo has a large contingent, and the 20-piece pipe and drum band ahead of that city's contingent, and the white and gold of the musicians appeared extremely suitable for the warm afternoon. The members of the lodge mentioned were next in line and following them came Clarke Wallace Lodge, that had also brought over its players of the martial drum and fife. There were twenty of these marching, all wearing a black uniform with orange military facings. And then appeared the sable regalia of the Black Preceptory. Borne aloft was the banner, also of black, with gold and red to relieve its sombreness and bearing besides many emblems, that to the uninitiated, were of distinctly Masonic character. Preceding the preceptor were the three pipers, Murdoch McDonald, James McKenzie and John Munro, stepping proudly with that "Who daur meddle wi' me" air that fits so well the sons of Scotland.

Songs and Irish stories enlivened the proceedings. W. Master Jags, of Baker Lodge, the new branch of the order in Vancouver, proved himself a most capable vocalist, and Bro. Moore, the general policeman of the Terminal City, convulsed the audience with Irish songs and comic stories. The gathering dispersed before midnight to give the brethren a good night's rest in preparation for today's festivities.

SERIOUS ACCIDENT.

Small Boy Victim of Runaway Near Rock Bay Bridge at Noon To-day.

Some excitement was occasioned in the vicinity of Rock Bay bridge at noon to-day by a runaway, the outcome of which might have been fatal to one person concerned. While standing in front of the grocery store on Water street, just at the far end of the bridge, one of Walsh Bros' team was frightened by the approach of an automobile. They started to jump about, and finally broke into a gallop. The driver, E. Walsh, was within the building. Seated in the truck was a small boy. When the horses started away, the big animal commenced crying, and Walsh rushed to the street to interfere. The wagon was dashed against a telephone post before reaching the bridge and the boy thrown upon the front axle. He held on desperately until almost over the bridge, and then fell. The unfortunate lad was carried to the offices of Sayward & Co. in an unconscious condition. Medical assistance was called, and according to the latest reports, he will recover little or none for his mishap.

In doing so, although personally opposed to all sectionalism, I cannot but express my admiration of the self-sacrificing spirit with which your ancestors upheld, against all attempts at coercion, the right of all men and women to worship God how, when and wheresoever seemed to them best. All honor to any man, society or country, that stands determinedly for freedom in all things except to do what is harmful to self, neighbor, or country.

I had hoped that in this grand new world of ours, separated from, and untrammelled by the usages of the old in all but the lagging ties of love and loyalty, where the blending of the races is fast wiping out all need of sectionalism or race prejudice; where the spirit of freedom and toleration is in the air we breathe, I had hoped, I say, that there would be no need of again raising the voice or the arm in defense of religious or civil freedom. It is a matter of deep regret that, in this day of full enlightenment we should be again called upon to defend ourselves, not as Orangemen, but as free citizens of a free country, from the lamentable attempt to lead us back into the Dark Ages that made necessary such societies as the Orangemen, and drove many of the best families of the Old World from home and country. It is a matter, I say, of deep regret that, in our governing body, apart from all political or party consideration, should so far forget that they are elected not to coerce but to maintain and further strengthen and safeguard that God given freedom which is the inherent right of all.

The celebration, following an unusual precedent in the order, is under the direction of the Grand Lodge. While all arrangements have been made by the local committee, the success of which is a matter for great congratulation, their duties practically ceased with the arrival of the outside members except insofar as they concern auxiliary festivities such as the base-ball and lacrosse matches and the promenade concert at the Gorge this evening. A large number of the Nanaimo excursionists return home tonight, as well as many from Vancouver, but the large majority of the latter will remain in the city until Sunday.

It is announced that the Nanaimo Silver Cornet band will give a short concert at the corner of Yates street and Government street this evening, commencing about 7 o'clock.

The parade followed Yates street, between Douglas and Blanshard, under the direction of Grand Director of Ceremonies, Abercrombie, and the Victoria district director, Hugh McDonald. As it began to assume shape the picturesque effects of the many colored regalia attracted favorable notice, which was increased as one by one the various sections were marched into line. Arrangements appeared to be carried out with great precision, and it was only a few minutes after the appointed time things assumed definite shape and the march to Beacon Hill commenced. The head of the procession was stationed on Yates street at Douglas, and the journey to the park was made via Douglas to Johnson, thence to Government and along Bridge walk to the destination.

As the cortège swung into Douglas street it presented an imposing picture, the white blouses of the Young Britons contrasting sharply with the vesta of many colored banners to the rear. The sun shone brightly and glistened with brilliancy on the heavy bullion decorations of the banners and the hundreds of collars and scarves. Gay music enlivened the air and kept the marchers in humor. All the music, practically, was Orange tinged, such of time melodies as "The Protestant Boys," "Rise, Sons of William," "Orange Feather" and "Boyne Water" being taken up by each band in succession. But patriotic airs were not forgotten, and "The Maple Leaf," "British Grenadiers" and the National Anthem testified to the loyalty of the Orange order. The skirt of the pipes vied with the shrill tones of fifes and the blaze of the military bands in line in the production of historic and patriotic melodies, all adding to the festivity of the afternoon.

In the line of march first came the Union Jack, borne aloft by the standard-bearer of Sir Thomas Scott Young Briton Lodge, and guarded by its six buglers. On either side were the appropriate officers bearing on the left an open Bible and on the right the charter of the lodge decorated with dark blue and orange ribbons. The members followed immediately, each dressed in dark trousers and a white blouse and having round his waist the blue and orange sash of the branch of Orangemen. The Fifth Regiment band followed, preceding the Orange-

This game will be between the Hillsides, of Victoria, and the Nanaimo seniors. When the local nine visited Nanaimo on Dominion Day each team won a game, so there should be good ball this afternoon. It may be said the Nanaimo team has just landed the Gorge cup in competition with Ladysmith and Duncans and comes here flushed with recent victories.

Although not officially on the programme, there will be a junior inclosure match, commencing at 5.30 at Oak Bay. The contestants will be the teams from Nanaimo and Victoria West. Both have been practicing assiduously for the occasion and will put up a

The celebration will close this evening with an orangeman orchestra concert at Gorge park. Brilliant illuminations will cast a radiance over the scene and the usual bioscope performance will be given. Very attractive arrangements have been made for the benefit of the visitors, including a special programme by the orchestra. The car service has been augmented for the occasion. Since now there has been a ten-minute service from the corner of Yates and Government streets and as the big cars are on this run the company anticipates no difficulty in handling the crowd.

Last night an open meeting was held in the A. O. U. W. Hall, where hundreds of Orangemen gathered in social intercourse and listened to stirring speeches by prominent members of the order.
